Made in Europe

# We make premium kiosks because we are a... kiosk manufacturer

## Multimedia Kiosks and Digital Mupis are developed and produced in Portugal.

The success of our company in the international market shows us that we have developed and produced excellent products and we should therefore be proud and confident in the future.

Welcome to PARTTEAM GROUP & OEMKIOSKS

# WE ARE A KIOSK MANUFACTURER COMPANY

Having started its activity in 2000, based in Portugal, PARTTEAM GROUP & OEMKIOSKS operates in several areas, including multimedia interactive systems, industrial production, graphic design and advertising, engineering and telecommunications, web based applications development, software development, etc.

We are a leading provider and manufacturer of multimedia and interactive kiosks, digital signage billboards and totems, serving all kind of industries as banking and insurance, industry manufacturers, education, tourism and hospitality, sport and leisure, telecommunications, public government, logistics and transports, aviation, shopping and retail, advertising, marketing and experiences, museums, exhibitions, construction, real state and others.

We know that success of a company is actually connected to a strategic plan, that approach citizens to digital technologies, promoting experiences and sharing, and thats why all company divisions participate and interact with each other so that a global harmony is achieved in every product or service develop by our company.

# RELIABILTY & PERFECTION

PARTTEAM GROUP | OEMKIOSKS selected a set of production lines, mostly with the Quality System Management certification according to ISO 9001:2008

To guarantee the maximum quality and precision of our equipments, our qualified tecnhical team assemblies every component and product in our facilities, and quality tests are performed before delivering to the client. We pride ourselves on producing equipment that most finishing is done by hand, achieving unprecedented accuracy.

# STATE OF THE ART DESIGN

Our engineers and designers have taken care to create solutions which in addition to innovative technology represents a distinctive mark in regard to the design, usability and ergonomics. We develop kiosks, totems and digital signage solutions (hardware and software) that can maximize the return of investment of our clients.

# FAST PRODUTION TIMES

With more than 15000 thousands of designs, we have a refined process of kiosk development and our in-house fabrication together with other manufacturing production lines allow us to leverage our resources, creating a flexible manufacturing capability that enables fast response to low or high volumes.

# BESPOKE & CUSTOM ENGINEERING

Our in-house tecnhical and product design departments are able to develop any bespoke equipment with custom design to fit the demands of each customer and each specific project.

# EXPERIENCE & TECHNOLOGICAL CAPABILITY

Several years has passed since our first kiosk production, and we are proud to continue manufacturing high quality equipments for indoor and for outdoor. We have more than 100 standard models and in some cases we are in the 7th generation of our kiosk models, and each one an improvment on the last generation.

# 14 YEARS WORKING FOR YOU

## WE ARE NOT A START UP... AND THIS IS EVIDENT, RIGHT ?

"As the market leader in multimedia kiosks, digital billboards, PARTTEAM GROUP knows that is important to customers a standard design. This is a device that will be immediately identified, although it is possible to configure and customizable in several dimensions or configurations."

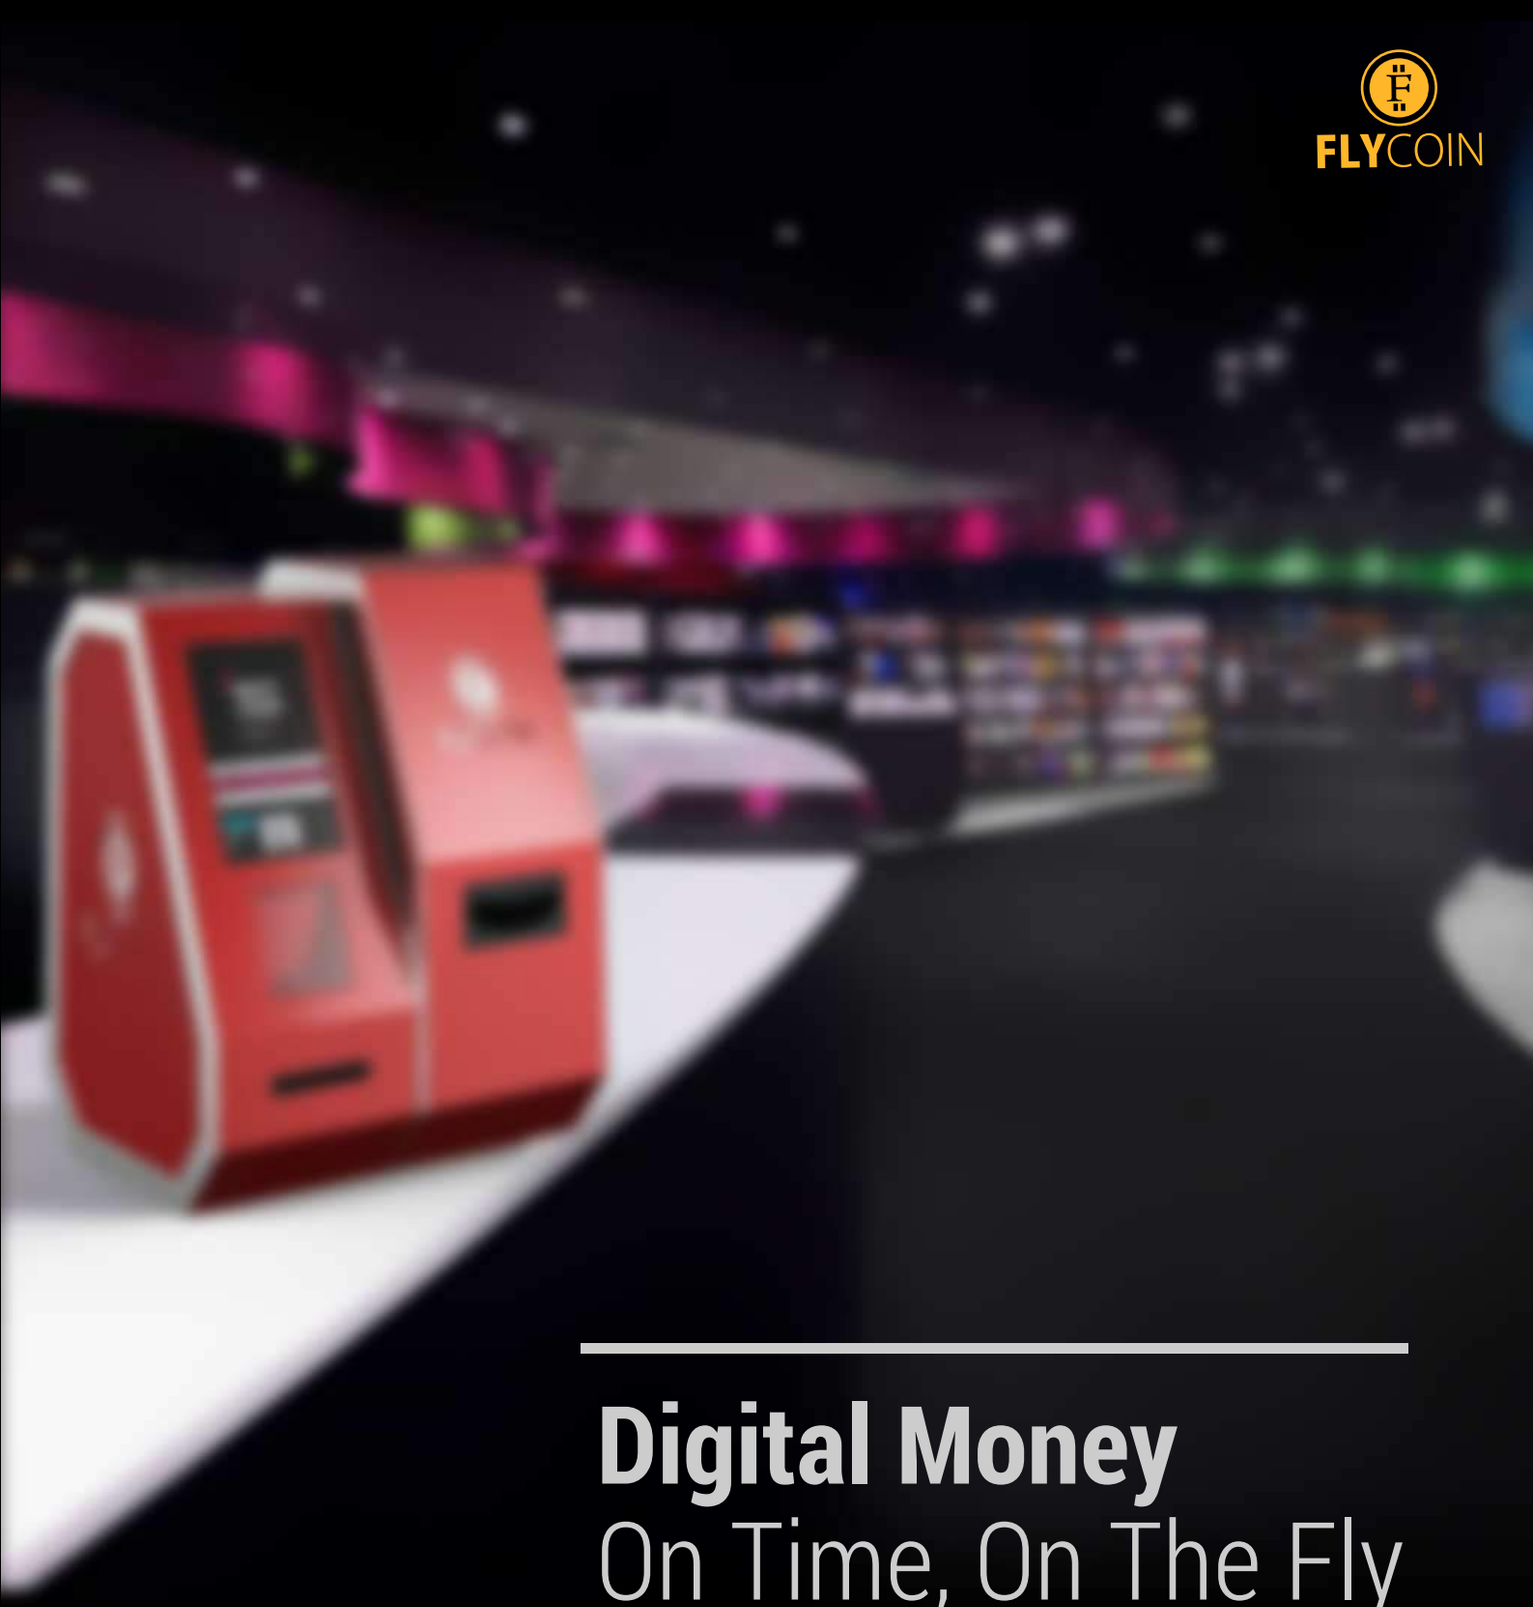
**Alina Carvalho - Design Director**

"Despite being a model with strong personality, this device can be adapated to customer needs, to meet the demands of your business, extremely easy to install in order to maximize your ROI (return on Investment).

**Fernando Carvalho - Sales Manager**

"This device is compatible with all major applications. It can be equipped with any computer and with any OS on the market, thus making it a versatile and without any owner or exclusive system that hinders the installation of applications, whether resident or in the CLOUD."

**Nuno Araujo - Software Director**



FLYCOIN

# Digital Money
## On Time, On The Fly
### HERE, THERE AND EVERYWHERE

FLYCOIN is a combination of several devices into one that could allow anyone to turn physical cash into digital money (bitcoin, paypal, etc.), make a payment, or simply just send money in a safe, effective and fast way !

# FLYCOIN

FLYCOIN is the new kiosk model that PARTTEAM PORTUGAL developed and produced to be an agnostic Device.

What this means is that this new kiosk will run any software application from any company in the world. Its like a OEM Kiosk that will allow any operator to run their own software applications, as self-service check-in, converting cash into bitcoins, check bitcoin credits, print bitcoin QRCodes identification, make Paypal transfers, make donations, convert vouchers into money, etc.

This machines, designed and manufactured in Portugal by PARTTEAM, looks like a typical POS, ATM or mini payment kiosk.

SEVERAL FUNCTIONS CAN BE OPERATED IN THIS KIOSK:

Use Flycoin for check-in / check-out at hotels
Use Flycoin for buying tickets
Use Flycoin to Bitcoin operations
Use Flycoin to loyalty programs
Use Flycoin for credit money in Paypal accounts
Use Flycoin like a change money machine (converting bills into coins)
Use Flycoin as a simple internet browser
Use Flycoin as virtual online phone
Use Flycoin only to allow users to pay for bills in internet.
Use Flycoin as POS
